Asia

Establishing top-brand status
in the growing market of Asia.

The Nippon Paint Holdings Group recognizes Asia—the substantial size and growth potential of the market—as the key to our global strategy. We have a strong presence in the huge market of China, where we boast the top share in the fields of architectural and DIY paints. With the recent boom in industrial products such as automobiles, we established development centers in China and Singapore as well as bases in developing countries including Bangladesh and Myanmar with an eye to further expanding our market share.

Americas

Expanding business fields in the high and
sustainable growth market of Americas.

The Nippon Paint Holdings Group expanded into North America in the late 1980s, when Japanese automakers increased their presence in the market. We established Nippon Paint (USA) Inc. in 1990, and have bases in Canada and Mexico. In 2017 we acquired DUNN-EDWARDS CORPORATION, and work to expand architectural paint in the Americas, which was previously focused on automotive coatings.

Expanding business fields
in the competitive paint market of Europe.

Europe is as big a market as North America, and a competitive market where major Western paint makers spare no effort to win a larger share. The Nippon Paint Holdings Group established Nippon Paint (Europe) Ltd. in the UK in 1989. Today, with bases also in Germany and Turkey, we are expanding our field of business in Europe centering on automotive coatings.

Oceania

We will enhance our leading position in Oceania.

In Oceania, where steady economic growth is expected, we will enhance our leading position in the growing market of construction paints and even aim to increase our market share.
