Nippon Paint Holdings Group operates a paint business and a fine chemicals business. We are a comprehensive paint manufacturer that offers a broad variety of products and services, ranging from high-quality and high-functionality paints, including eco-friendly types, to pre-treatment agents for painting, treatment agents that provide functionality to thin films, and systems proposals to improve the efficiency of the painting process.

Paint Business

- **Trade use paints**
  - We provide paints widely used at various construction sites such as houses, buildings, arches, bridges. In addition to eco-friendly paints, our product line-up includes paints that increase functionality such as anti-corrosive paints for structures.

- **Automotive coatings**
  - Our product lineup includes paints with high quality and performance for all steps of the car body coating process, ranging from undercoating to middle-coating and top-coating, and supply them to global car manufacturers.

- **Industrial coatings**
  - We provide pre-coat and post-coat paints, as well as eco-friendly paints including powder paints containing no solvent, to a wide range of industries such as construction machinery, agricultural machinery, exterior building materials, office equipment, and home electronic products. We will also continue to expand our business activities in Asia.

- **SSL Marine coatings**
  - We develop and market advanced paints that achieve both environmentally friendly and cost reduction, such as ultra-low fuel consumption antifouling paints that comply with global environmental regulations in the shipbuilding and marine industry.

Fine Chemicals Business

- **Surface treatments**
  - Surface treatments are required in a wide range of industrial sectors. We develop advanced products, such as surface treatments with an affinity for paints and functional thin-film paints that satisfy various customer needs.

- **Auto refinish paints**
  - Applying cutting-edge technologies cultivated for coating new cars, we have developed proprietary paints appropriate for refinishing. These paints help reduce environmental impact and improve the efficiency of the refinishing process.
