

ESG Statement

At Nippon Paint Group we aim to conduct our business activities to support and enable sustainable development everywhere we operate. We aim to incorporate three elements – economic, social and environmental– in our sustainability activities in a balanced and integrated manner.

Creating paint and coatings and its adjacencies products or services to add color, comfort, and safety to people everywhere has been our mission since the company was founded. Finding solutions to global sustainability challenges is our responsibility to future generations and is a driving force for our continued growth and success. To achieve this, we will:

- Pursue technological innovation across the value chain to contribute to the sustainability of society through innovative products and services, and new business opportunities.
- Engage and work with our stakeholders to meet their expectations and deliver on our shared sustainability commitments, responsibilities, and challenges.
- Establish effective governance frameworks to ensure the transparency, objectivity, and fairness of the management of our company and earn society's trust everywhere we operate.
- Respect, support, and enable the diverse employees of Nippon Paint Group to enable them to achieve their full potential and create innovative and sustainable value for all.
- Support the 2030 Agenda for Sustainable Development Goals (SDGs) as we believe that the delivery of sustainability improvement plans will lead to the creation of new business opportunities and Maximization of Shareholder Value (MSV*).

* MSV is defined as maximizing shareholder value that remains after fulfilling our obligations to customers, suppliers, employees, society and other stakeholders.
